For the Languages of Limited Diffusion and Very Limited Diffusion above, we recommend scheduling the call in advance to avoid wait times for an available interpreter. Without scheduling in advance, we cannot guarantee the same rapid response time as the more mainstream languages.

Scheduled calls are billed at a 30-minute minimum or for the length of time reserved in the request, whichever is longer. For example, if an interpreter is reserved for three hours and the call only takes an hour, the full time period is still billed.

Scheduled calls cancelled less than 24 hours in advance or that no show will be billed for their total amount.
